

2008 Editorial Calendar

		Industry Focus	Product Focus	Design Tools & Technologies	Special Features
January/ February Closing Jan 09		Aerospace: The engineering behind Canada's aerospace industry	Grandstand: Actuators & Cylinders Idea Generator: Interfaces, valves, materials...	CAD: Visualization Rapid prototyping: Thermoplastics & metals (SLS, FDM, EBM)	Motion Control: Fieldbus technologies Adhesives & Fasteners Power Transmission
March Closing Feb 6		Fluid Power & Controls Buyer's Guide: A perennial guide to products and sources of supply	Product Showcase: A round-up of new fluid power & controls products and solutions	CAD: Fluid power system software	Fluid Power Industry Roundtable: Experts discuss the trends and issues of the fluid power industry
April Closing Mar 4		Automotive: The latest tools, techniques and trends in automotive design	Grandstand: Bearings & Guides Idea Generator: Fasteners, motors, enclosures...	CAD: Mid-sized CAD PLM/PDM: Collaboration solutions	Motion Control: Safety systems Fluid Power Power Transmission
May Closing Apr 2		Green Design: Cutting energy costs, meeting regulatory requirements and improving the bottom line	Grandstand: Electronics & Industrial computers Idea Generator: Sensors, seals, ball screws...	CAD: High-end CAD Hardware: A review of the latest hardware & gadgets	Motion Control: PLCs and controllers Automotive Adhesives & Fasteners
June Closing May 6		Automation: Machine design for the Canadian automation market	Grandstand: Pumps & Valves Idea Generator: Transducers, drives, fluid control...	CAD: Finite Element Analysis (FEA) PLM/PDM: Success stories	Motion Control: Machine vision systems Materials Fluid Power
July Closing June 24		Motion Control Buyer's Guide: A resource of motion control products and sources of supply	Product Showcase: A round-up of new motion control products and solutions	CAD: Motion simulation	Motion Control Industry Roundtable: Experts discuss the trends and issues of the motion control industry
August/ September Closing Jul 29		PLM/PDM Supplement: PLM/PDM news, reviews and product applications	Grandstand: Sensors & Switches Idea Generator: PLCs, actuators, cylinders...	CAD: 3D data translation Rapid prototyping: The latest in 3D printing	Motion Control: Motors and drives Automotive Fluid Power
October Closing Sept 3		DE Salary Survey: Canada's design engineers share their salaries and career outlooks	Grandstand: Linear Motion Idea Generator: Pumps, electronics, couplings...	CAD: Computer Aided Manufacturing (CAM) Hardware: A review of the latest hardware & gadgets	Motion Control: Industrial computing Materials Education & Training
November/ December Closing Oct 29		Future Tech: Mechatronics, robotics and nanotechnology	Grandstand: Motors & Drives Idea Generator: Encoders, switches, guides...	CAD: Computer Aided Industrial Design (CAID)	Motion Control: Robotics Power Transmission Fluid Power
